

ILLUTEL | BROADCAST

Live broadcasting from anywhere

A COMPLETE PACKAGE FOR BROADCASTING OVER INTERNET

ILLUTEL Broadcast is a complete solution for live streaming. Broadcast in an easy way to a large number of viewers. The software is automatically connected to one of the largest streaming networks in the world. There are no limitations of simultaneously viewers. You can travel anywhere with your PC, connect your camera and start broadcasting. Low initial investment and refill package, no monthly fee.

Your broadcast is automatically recorded to be used for on demand viewing. At the end of the on demand video you can customize a questionnaire. You get statistics of viewing and survey results.

“ We brought a laptop and a video camera when we went on a conference in Sweden. Our viewers in Sweden, Finland, Spain and USA got a perfect image and sound quality. They could ask question via email, sms and even phone to us directly. ”
